

DXC – Green-Eclipse

Brief Description: A platform from where people can find all eco-friendly and reusable product.

Problem Statement: The topic of sustainability is big right now, and consumers are looking for products that will help them live a more eco-friendly life. Whether it's reusable bags, non-plastic straws, biodegradable single-use coffee cups, or even beeswax "plastic" wrap, consumers are open to trying new and innovative products if it will mean living a more sustainable life. Think of all the products you use on a daily basis that aren't sustainable or reusable.
Build an online system to sell and buy reusable and eco-friendly products .

Core Problem: An appropriate platform is not available for sellers to sell their products to intended customers. Customers are also facing challenges in finding products with required specifications.
