DXC – FarmEasy

Brief Description: A platform from where farmers can buy, rant agricultural machineries. They can also check their eligibility status of insurance and loan. The platform also useful to spread awareness of modern agriculture.

Problem Statement: All farmers are not able to get agricultural machinery for their work. Due to lack of funds and high price of the machinery. It is very much difficult for them to manage these things which in response decrease the yields. On the other hand, they have a lack of knowledge of modern agriculture which in response decreases the yields. The Problems to solve are how to:

• Rent/ Sell/ Buy Machineries and crops.
• Help them to aware modern agriculture.

Core Problem: Due to lack of funds and knowledge farmers are not able to produce more yields by which they are not able to buy / rent machineries and crops for their farming activities.
